A Message From The President

Dear Friends,

We are living in very challenging times and our fight is far from over!

Our children are receiving a lack-luster education because politicians believe our children's futures don't matter. Some believe healthcare is a privilege that everyone doesn't need yet the healthcare disparity remains high within the communities of people of color.

Our very livelihoods are at risk because some people don't believe we care about our country but think we are naive enough to want to bear the financial burden to keep America afloat.

Our forefathers bravely showed us why it's important to stand for the civil and human rights for all people and walked us part of the way so that we could accomplish many great things. But it is our time to take up the mantle and continue to march for equality for our children and generations to come. The enemies are different, their objectives are the same and our mission is still clear.

The Florida Civil Rights Association will continue to advocate for equality, civil rights, civil liberties, and social justice for all people in the public and private sector across the state of Florida.

Finally, I invite you to make a financial donation to support the FCRA or become an active member of a new civil rights generation of community leaders in your city/county.

Thank you,

J. Willie David, III
President
Florida Civil Rights Association
